Happy New Year from the Safeguarding Team

Parental Controls

Over the Christmas we expect Father Christmas to delivered some new technology to the students, please remember to check the parental controls to ensure the content that your child/ren can access is age appropriate. You can also set screen time restrictions if you wish.

On entertainment platforms, such as Netflix, Amazon Prime, Disney+ etc, you are able to set parental controls to ensure the films/ TV series available are age appropriate.

Common Sense Media

A website where parents/ carers can look up specific apps, games, films and TV shows to find out what they are about and if they are suitable for your child. They also have helpful information and a Corona Support Hub. www.commonsensemedia.org/reviews
Online Safety Guides for different age groups

These guides were shared with us and go through online safety for different age groups and topics such as online gaming, cyberbullying, screen time and online pressures.

Online Safety Leaflets & resources - Internet Matters

Tellonymn App

TELLONYM lets you "answer anonymous questions and ask others the things you have never dared before.". User profiles contain one photo (though many more can be seen by linking the app to Snapchat, Twitter, and Instagram), and users can follow each other and send each other anonymous messages.

Due to the anonymous nature of the app you can communicate with people you do not know and there is a high potential for cyberbullying and unkind messaging. For more information: Tellonym App Review | Common Sense Media
